

***Life!* after gestational diabetes**

The *Life!* program is supported by the Victorian Government

Prioritise your health and reduce your risk of type 2 diabetes with a free healthy lifestyle program.

As mothers, we all want to be healthy and have the energy to do the things we love. It may be keeping up with a young family or supporting our children to have the best start to life. However, women with a history of gestational diabetes are up to eight times more likely to develop type 2 diabetes. This risk is highest in the first five years after the birth of your baby.

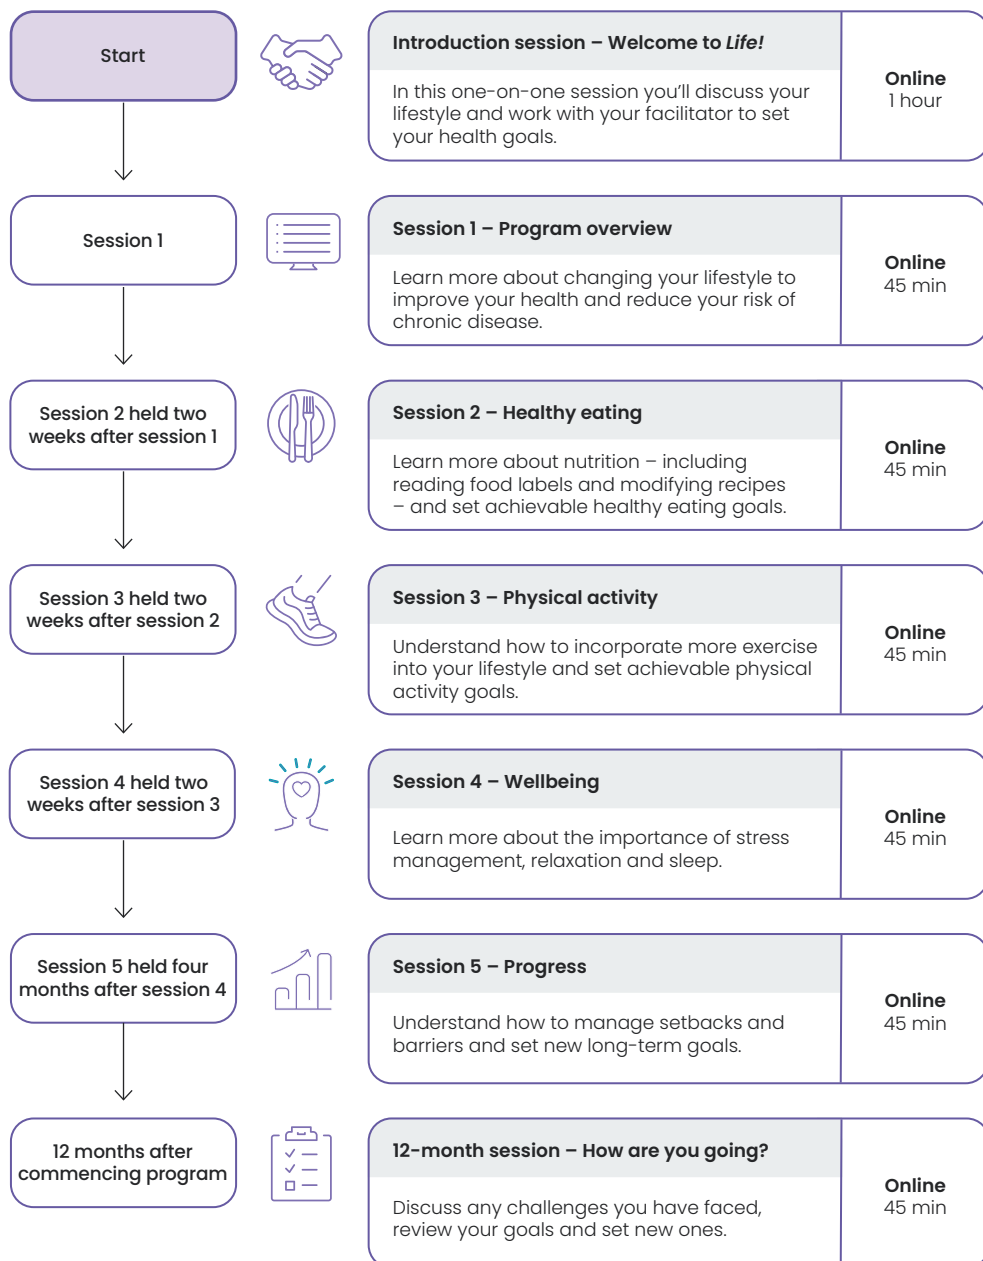

The good news is that the *Life!* program has been developed specifically to help busy mothers like you to significantly reduce this risk.

This program is also available in Vietnamese and delivered by a Vietnamese health professional.

***Life!* is a completely FREE program that includes:**

- An initial health assessment and individual goal setting
- A series of online group sessions delivered by a dietitian or exercise physiologist
- Access to a range of resources and tools, including nutrition and exercise advice
- Support and advice on sleep and stress management
- Ongoing support and guidance from your group facilitator
- Opportunity to connect with other mothers

Group course

Having helped over 75,000 Victorians over the past 15 years, this online group program will guide you, alongside other mothers, to set healthy living goals and learn how to achieve them.

Zoe had gestational diabetes during her pregnancy and found *Life!* helpful to reach her health goals.

“ I decided to do the *Life!* program because I didn't want to get diabetes and I wanted to stay well and be a healthy mum in the future. This program is amazing. It really helped me much more than I expected. ”

Zoe – *Life!* program participant

Join the *Life!* program today by:

Completing the health check at
lifeprogram.org.au/life-program-gestational-diabetes/
or call us on 13 RISK (13 74 75).

If you were diagnosed with gestational diabetes during pregnancy you are automatically eligible!
